#### Customer Problem Statement Template:

Diabetic retinopathy is a diabetes complication that affects eyes. It's caused by damage to the blood vessels of the light-sensitive tissue at the back of the eye (retina). At first, diabetic retinopathy might cause no symptoms or only mild vision problems. But it can lead to blindness. The condition can develop in anyone who has type 1 or type 2 diabetes. The longer you have diabetes and the less controlled your blood sugar is, the more likely you are to develop this eye complication.

#### Patient 1:-

#### Patient 2:-

Problem Statement (PS)	I am (Patient)	I'm trying to	But	Because	Which makes me feel
PS-1	Diabetic Patient	do diabetic retinopathy analysis	this process is costly & time consuming	I have blurred vision	Uncomfortable to lead my daily life.
PS-2	Diabetic Patient	Check for retina infection due to diabetics	I am not sure how efficient the result produced by eye doctors	they use traditional method for eye testing	fear, that I will get vision blindness
